CAREER OBJECTIVE

Aspiring software engineer with strong CS fundamentals and hands-on experience in AI and web development.

SKILLS SUMMARY

- Programming Languages:** C, Java, Python
- Web Technologies:** HTML, CSS, JavaScript, React, Node.js, Postman
- Core Concepts:** Computer Networking, Operating Systems, Cloud Computing
- Databases:** MySQL, PostgreSQL
- Soft Skills:** Fluent in English, Hindi, and Kannada; Communication, Adaptability, Team Player

EDUCATION

Guru Nanak Dev Engineering College, Bidar <i>Bachelor of Engineering - Computer Science and Engineering; CGPA: 8.24</i>	Bidar, Karnataka Nov 2022 - Jun 2026*
Sankalp Independent PU College of Science <i>Pre-University Course (PUC); Result: 75%</i>	Karnataka Jun 2021 - Apr 2022
Shree Basaveshwar High School, English Medium <i>SSLC (State Board); Result: 84%</i>	Karnataka Jun 2019 - Apr 2020

EXPERIENCE

InnerCircle Softech Pvt. Ltd. <i>Full Stack Software Engineer Intern</i>	Banglore
- Developing full stack web applications with frontend, backend, database, and authentication. - Building and integrating CRUD applications with REST APIs. - Supporting deployment, CI/CD, and basic DevOps/cloud operations. Tech stack used: React.js, JavaScript, FastAPI, REST APIs, DBMS, Git, Cloud, DevOps Tools.	
InternPe <i>AI/ML Intern</i>	Remote
- Worked on machine learning models and AI-based tasks, gaining hands-on experience in data processing and model development. Tech stack used: Python, Machine Learning.	
Zetheta Algorithms Private Limited <i>Software Engineer Intern - Remote Project Work Experience Program</i>	Part-time
Selected for the Circa Internship Programme to work on remote software engineering projects in a professional development environment.	
BrightCHAMPS <i>Coding Educator</i>	Freelance
Conduct coding sessions for Grade 1-10 students, teaching programming fundamentals, logic building, and problem-solving in an interactive way.	

PROJECTS

- AI-Driven Mock Interview Application** (Major Project) - Developed an AI-based interview preparation tool with real-time interaction and feedback.
 - Tech:** React.js, JavaScript, REST API, Gemini API, CNN, NLP

- **Enterprise Management System** (Full Stack Project) - Secure, collaborative task management platform using role-based access control to coordinate workflows between Admins, Team Leads, and team members.
 - **Tech:** React, TypeScript, Supabase (Auth & PostgreSQL), Vite, Git/GitHub
- **E-Commerce & Inventory Management System** - Built a full-stack web application to manage online sales and inventory operations.
 - **Tech:** HTML, CSS, JavaScript, Cloud Backend
- **AI-Driven Research Misconduct Detection System** - Designed a machine learning model to detect anomalies in research data.
 - **Tech:** Python, Machine Learning
- **AI-Driven Bon Voyage System** - Developed an AI travel assistant for route guidance using map integration.
 - **Tech:** HTML, CSS, JavaScript, Gemini API, Google Maps API

ACHIEVEMENTS

- **Presented Research Paper at ICETCAI (International Conference):** "An AI Driven Mock Interview System using NLP and Computer Vision", Apr 2026.
- **Gemini Certified Student:** Certified by Google Gemini, Oct 2025.

CERTIFICATIONS

- Completed Internship on AI/ML Domain - InternPe, Sep 2025
- Python For Beginners Course In-Depth - Udemy, Dec 2025
- Data Science & Analytics - HP LIFE Foundation, Sep 2025
- Workshop on Cloud Computing & Virtualization - IEEE, GNDECB, Apr 2025
- Workshop on 3-D Printing for Businesses - Kritika Institute of Technology, Oct 2023
